HOW TO USE THIS BOOK

Star Wars: The Clone Wars Episode Guide brings together every episode of series one through five of the hit television series, presented as never before. Here you'll find the episodes in the order of the Clone Wars storyline, rather than in the order they were written and broadcast. Above are the episode names so you can find your favourites, and there is also an icon that indicates which series they belong to. Every episode is explored in a double-page spread, with story highlights, in-depth facts and panels showing the key characters, vehicles, droids and locations. A data file also gives each episode a number referring to its position in the storyline, along with its episode and series number, original US airdate, director and writer.

INTRODUCTION

A long time ago in a galaxy far, far away....

The Clone Wars have engulfed the galaxy! Billions of battle droids have invaded the Republic, built by greedy corporations and commanded by their Separatist masters: the charismatic leader Count Dooku, cyborg warlord General Grievous and the mysterious Darth Sidious.

Opposing the Separatists' vast armies are clone troopers, created to serve and defend the Republic with unquestioning loyalty to its embattled leader, Supreme Chancellor Palpatine. Thousands of Jedi Knights have agreed to lead the clones as the Republic's generals, abandoning their traditional role of peacekeepers during the galaxy's hour of need.

The mightiest of the Jedi is Anakin Skywalker, rumoured to be the Chosen One destined to bring balance to the Force. Anakin often fights alongside his former master, Obi-Wan Kenobi, and his Padawan: the bold, sometimes brash Ahsoka Tano. But Anakin has a secret. He has violated the rules of the Jedi Order by marrying Padmé Amidala. Padmé is the outspoken Senator from the planet Naboo, who seeks to use her role to bring an end to the war.

Anakin and Obi-Wan have allies in their fight: Yoda and Mace Windu, the heads of the Jedi Order; the droids C-3PO and R2-D2 and brave clone soldiers, such as Captain Rex. Their adventures bring them alongside friends and foes: the peace-seeking Duchess Satine of Mandalore; the ruthless bounty hunter Cad Bane and the devious pirate Hondo Ohnaka. As the Clone Wars entangle more and more planets, the fate of the galaxy and a thousand generations of civilisation hang in the balance....

A SEPARATIST TASK FORCE

commanded by the legendary Admiral Trench is blockading the planet Christophsis. After Anakin Skywalker fails to break through Trench's lines, Obi-Wan Kenobi arrives with an experimental stealth ship. Its cloaking device renders it invisible and enables Anakin and veteran officer Admiral Yularen to play a dangerous game of cat-and-mouse with the crafty Trench.

FOLLOWING ORDERS

Obi-Wan says that the stealth ship will enable Anakin to slip through the blockade and deliver supplies to Senator Bail Organa, who is trapped on Christophsis. But Anakin has a more important task in mind – outwitting Trench.

A CHANGE OF TACTICS

While taunting the Jedi, Trench reveals that he has faced a cloaked ship before. Anakin and Yularen examine the tactics Trench used in such situations to find a pattern they can exploit.

ANAKIN'S GAMBLE

When Trench lowers his shields to fire torpedoes at Anakin, the Jedi steers his stealth ship toward Trench's bridge. The torpedoes follow Anakin's path and hit Trench's own ship instead!

A CHANGE OF NAME

The spider-like Admiral Trench was originally named Admiral Taranch. This spelling can be seen (in Aurebesh) on Yularen's intelligence report.

CLOAKING DEVICES

In Episode V: *The Empire Strikes Back*, Captain Needa insists that no ship as small as the *Millennium Falcon* could have a cloaking device.

Trench regards war as a great game and enjoys matching wits with a worthy opponent such as Anakin Skywalker.

"I smell FEAR ... and it smells GOOD."

ADMIRAL TRENCH

AFTER BARELY ESCAPING

a Separatist ambush on Christophsis, Jedi Knight Anakin and Obi-Wan realise a traitor is leaking the Republic's plans to their enemies. Commander Cody and Captain Rex investigate and come to the disturbing realisation that the traitor is one of their fellow clone troopers. How do they outthink an adversary who is identical to them?

TRAITOR IN THE RANKS

THE NEW PADAWAN

Yoda has sent Ahsoka Tano to Christophsis to serve as Anakin's Padawan. She helps turn the tide in the battle and then heads for the planet Teth with Anakin to rescue Rotta the Huttlet.

TOUGH CLIMB

On Teth, Captain Rex's clones face a daunting task: to scale a vertical cliff and attack a palace full of battle droids. Anakin and Ahsoka lead the clones on this perilous mission.

Anakin never wanted a Padawan, convinced an apprentice would only slow him down. But Yoda hopes the responsibility of being a teacher will help Anakin learn how to let go of his dangerous emotional attachments.

FAMILIAR VOICES

For the theatrical release, Samuel L. Jackson (Mace Windu), Christopher Lee (Count Dooku), Anthony Daniels (C-3PO) and Matthew Wood reprise their prequel trilogy roles. Daniels and Wood would go on to do the television series.

UNHAPPY HOMECOMING

After crash-landing the freighter *Twilight* on Tatooine, Anakin and Ahsoka make their way to Jabba's palace to return Rotta. But they do not guess that they are walking into a trap: Count Dooku awaits them.

THE PLOT IS REVEALED

While Anakin duels Dooku on Tatooine, Padmé Amidala discovers that Ziro the Hutt plotted the kidnapping with Dooku. When clone troopers capture Ziro, he admits his role in the plot. Dooku's plans are ruined!

Anakin grew up on Tatooine, and returning to his homeworld reminds him of his mother's death, stirring dark feelings in him.

ON KAMINO, Domino Squad, made up of five clone cadets – Echo, Fives, Hevy, Droidbait and Cutup – struggle to complete the training exercises necessary for graduation. Jedi Master Shaak Ti oversees their training and faces a hard decision: if the feuding clones of Domino Squad don't learn to work together quickly, she will have to reject them as unfit for military duty.

FALLEN DOMINOS

In training exercises on Kamino, the Dominos usually fail because they bicker and think only of themselves. They are in danger of being removed from the cadet programme.

Hevy is training to be a weapons specialist, and so uses a cannon during exercises.

"WHERE THERE'S A WILL, THERE'S A WAY."

THE SEPARATISTS have blockaded Ryloth and invaded the Twi'lek planet, endangering freedom fighter Cham Syndulla and Jedi Master Ima-Gun Di. Senator Bail Organa and Jar Jar Binks ask Toydaria's King Katuunko for help, but he needs his world to appear neutral while the Separatists are watching. The king agrees to help, however, if the Republic visitors can keep his involvement a secret.

THE KING'S DILEMMA

King Katuunko feels powerless. He wants to help the Republic relieve the siege of Ryloth, but cannot risk the Separatists' wrath if he is caught taking sides in the war.

Battle droid commanders can be distinguished from other droids by their yellow markings.

The ship leaves Jedi Master Plo Koon marooned in space with clone Commander Wolffe and two troopers. As battle droids scour the debris for Master Plo and his men, Anakin and Ahsoka disobey the Jedi Council, who don't want to risk losing more ships, and race off to attempt a rescue.

Following the attack on their ship, Plo and his troops face a horrible fate: General Grievous's battle droids are searching the debris for escape pods and ripping them open.

A DEADLY CONFRONTATION

After following Grievous into his lair and battling a roggwart, Nahdar confronts Grievous alone. The impulsive young Jedi is unaware that he is no match for the cyborg general.

Under Grievous's direction, Gor the Roggwart has been surgically enhanced with exoskeletal armour and cybernetic arms.

"CHOOSE WHAT IS RIGHT, NOT WHAT IS EASY."

REPUBLIC FORCES fighting on Malastare detonate a massive electro-proton bomb designed to devastate the Separatists' mechanical armies. The bomb works – but also frees a giant Zillo beast from underground. The Dugs living on Malastare want Republic forces to help kill the beast, but Mace opposes the decision as killing an innocent creature is not the Jedi way.

DOCTOR BOLL'S BOMB

The electro-proton bomb created by scientist Dr. Sionver Boll destroys the Separatists' droid armies. It also creates a huge crater and awakens a Zillo beast, previously known only from Dug legends.

ON THE LOOSE

The giant creature rampages through Malastare. The Dugs try to poison it with toxic fuel. When this doesn't work, Republic forces try firing stun cannons at the beast to get it under control.

CAPTURED CREATURE

With the beast finally secure, Anakin and Mace assume the Republic will transport it to a far-off world. Palpatine has other ideas: he wants the giant creature to be studied on Coruscant.

The Zillo beast's scales seem impenetrable to blaster fire and lightsabers. Sionver Boll wonders if studying the beast could help the Republic design tougher armour.

Malastare's fuel is toxic to Zillo beasts: the Dugs' leader says it has been used to kill them in the past.

THE WILHELM WAIL

When the Zillo beast steps on a clone trooper you hear a "Wilhelm scream". This is an effect begun by sound designer Ben Burtt, and can be heard in all six *Star Wars* films.

"It is not the JEDI way to take an INNOCENT life."

MACE WINDU

THE ZILLO BEAST STRIKES BACK

"THE MOST DANGEROUS BEAST IS THE BEAST WITHIN."

ON PALPATINE'S ORDERS, the captive Zillo beast is brought to Coruscant, where scientist Dr. Sionver Boll hopes its scales can be researched to create better military hardware. After Palpatine orders Boll to kill the beast, it breaks free and rampages across Coruscant, making a beeline for the Senate building and the man who gave his death sentence.

SEEKING REVENGE

The Zillo beast escapes captivity and rampages across the cityscape of Coruscant. It may be seeking revenge on the man who ordered its torment.

RETURN OF THE DROIDS

The hulking labour droids that help Doctor Boll with the Zillo beast are also seen in Episode III: *Revenge of the Sith*.

The Zillo beast's horns are actually ornamental and are chiefly used in courtship displays.

Lott Dod is the Trade Federation's senator. His Separatist loyalties are not a secret, but he is allowed to serve on Coruscant because his business is vital to galactic trade.

A SECRET MEETING

A summons from the Jedi Council ruins Anakin and Padmé's evening. The Council wants her to spy on her old boyfriend, Senator Clovis. She agrees to go with Clovis when he asks her to accompany him on a trip to visit Senator Lott Dod on Cato Neimoidia. A jealous Anakin goes along in disguise.

GEONOSIS MUST FALL!

The fighting rages on the ground, with clone troopers advancing and battling Geonosian drones at close quarters. Despite mounting casualties, the Jedi and clones push on.

WORKING TOGETHER

Anakin and Ahsoka lead the mission to destroy the shield generator protecting the droid factories. The Jedi face a difficult task – every step they take is contested by battle droids.

Flame troopers have insulated body gloves, which resist heat and are chilled by coolant reservoirs.

AD-DAY SALUTE

The shot of Anakin and his troops charging the Geonosian troops in this episode is an homage to the 1962 D-Day classic film *The Longest Day*.

Flame troopers lay down sheets of flame with their BT X-42 heavy flamethrowers.

Will Anakin be able to rescue them from their fate?

A DOUBLE ATTACK

While Ahsoka and Barriss sneak into the catacombs beneath the foundry to plant bombs, Anakin and Luminara plan a frontal attack to divert the Separatists' attention.

PADAWANS IN PERIL

The Geonosians find the bombs the Padawans have set and deactivate them, so Ahsoka and Barriss take control of a Super Tank and turn its guns on the foundry's reactor – only to be caught in the blast!

LOST FRIENDS?

A huge explosion destroys the foundry, with the Padawans trapped inside. Luminara believes that the apprentices have perished, but Anakin insists they are still alive and begins a search.

A REAL SQUARE

Most Jedi would cut a circular hole with their lightsabers, but when creating a hole in the Geonosian weapons factory wall, buttoned-up Barriss cuts a neat rectangle.

Ahsoka thinks that they were right to set off the explosion and put themselves in danger, but she refuses to accept her fate. She is determined to live and is certain that Anakin will try to save her.

“Looks like the Separatists have a NEW toy.”

LUMINARA UNDULI

LEGACY OF TERROR

"SOMETIMES, ACCEPTING HELP IS HARDER THAN OFFERING IT."

LUMINARA disappears after tracking the Separatist leader and Archduke of Geonosis, Poggle the Lesser, to a subterranean temple. Following her lead, Anakin and Obi-Wan discover Poggle is hiding in the lair of Karina the Great, the secret Geonosian Queen, who uses parasitic brain worms to re-animate Geonosian corpses. How can Anakin and Obi-Wan rescue Luminara from enemies that are already dead?

DARK LABYRINTH

As they track Luminara, Anakin and Obi-Wan must lead their troopers through a pitch-black labyrinth, where none of them can tell what might be waiting for them around the next corner.

MILE MEASURES

In this episode, Obi-Wan says "miles" — a rare exception to the usual rule of using metric measurements in *Star Wars*.

The Archduke of Geonosis, Poggle is a leading Separatist with extensive dealings with the rest of the galaxy. But few know he takes his orders from an unseen ruler.

Karina believes herself secure in the depths of her royal nest, where she is served by lesser Geonosian nobles such as Poggle and a retinue of servants and warriors.

to Mandalore to fight against corruption by teaching the next generation of Mandalorians about honest government. Inspired by Ahsoka's lessons, several cadets attempt to investigate the planet's food shortages – and stumble across a plot to overthrow Duchess Satine. Little do they know how high up Mandalore's government the plot goes.

CADET UNIFORMS

The chevrons on the cadets' uniforms look similar to a piece of armour on Jango and Boba Fett's breastplates.

EVIDENCE OF CORRUPTION

The cadets sneak off to a warehouse and discover smugglers meeting members of the Mandalorian police. Alarmed, they report their findings to Prime Minister Almec.

Ahsoka is without her lightsaber. After Obi-Wan's run-in with the Death Watch on the planet, off-worlders are no longer allowed to carry weapons on Mandalore.

The idealistic, brave Korkie Kryze is Satine's nephew, and one of the potential future leaders of Mandalore.

AGREEING ON A STRATEGY

Meanwhile, Anakin, Ahsoka and Captain Tarkin make a perilous trip through a fuel line. Anakin and Tarkin discover they agree about how the Jedi might wage war more effectively.

UNDER ATTACK

The two groups meet at the landing field - but Sobeck has flooded the area with his droid troops. ARC Trooper Echo is an unlucky victim of their fire. Can the Jedi escape?

B2 battle droids are the brutes of the Separatist Army; they are not very intelligent, but they are well-armed and difficult to take down.

In close quarters Ahsoka sometimes switches to a Shien variant combat style, in which she wields her lightsaber using a reverse grip.

VICIOUS ATTACK

Warden Osi Sobeck releases savage anoobas to hunt the Jedi and stop them from escaping. One of the beasts mauls Jedi Master Even Piell. With his last bit of strength, Piell tells Ahsoka the Nexus Route coordinates.

HELP ON ITS WAY

A Republic fleet arrives at Lola Sayu and battles its Separatist defenders. Jedi Master Saesee Tiin leads the fighters, while Plo Koon's gunships prepare for a surface assault.

TARGETING TARKIN

Sobeck believes the only way to keep the Nexus Route a secret is to end Republic Captain Tarkin's life but Ahsoka stops him just in time.

Clone troopers are trained to board gunships at a run, grabbing on and giving the all-clear in mere seconds (a stationary target has a short life expectancy).

Plo Koon's Wolfpack, led by the Jedi Master and Commander Wolffe, are experts at difficult extractions under fire.

ON THE RUN

The Trandoshans dump Ahsoka and the other captives on Wasskah's beach, then open fire. Those who survive have until morning before the hunt begins. Overnight, Ahsoka teams up with other Jedi younglings who are also fugitives.

SNIVVIAN HOMAGE

One of the fugitives, Snivvian Katt Mol, has an outfit that plays homage to that worn by Snaggletooth, a 1978 Kenner action figure from Episode IV: *A New Hope*.

The Mon Calamari are technologically advanced, but sometimes the ancient ways are best: Prince Lee-Char calls his people by blowing on a conch shell.

JEDI AND PIRATES TOGETHER

Ahsoka and Gwarrm lead a band of pirates and younglings into the occupied base. They free Hondo and wade into the ranks of battle droids, swinging lightsabers and vibroswords.

AHSOKA VS. GRIEVOUS

A Jedi youngling named Katooni escapes with Hondo and his pirates in *Slave I*, but Grievous catches up with the other younglings. Only Ahsoka can stop him from adding more lightsabers to his collection.

Although Professor Huyang's arms have been severed by the pirates, his cognitive unit remains intact.

ART OF HUYPANG

Huyang's design draws inspiration from concept art of C-3PO and other early sketches by legendary illustrator Ralph McQuarrie.

GENERAL GRIEVOUS

SECRET WEAPONS

"HUMILITY IS THE ONLY DEFENCE AGAINST HUMILIATION."

THE JEDI HAVE intercepted a secret transmission from General Grievous, but they cannot understand it without an encryption code, which is well-guarded aboard a Separatist ship. In order to steal the code, the Jedi prepare an unlikely strike team: four astromechs and a modified pit droid. Known as D-Squad, these droids are led by the diminutive Colonel Gascon.

D-SQUAD ATTACK

After boarding the Separatist warship, the droids of D-Squad take more direct action than Gascon had in mind, attacking the battle droids escorting them for interrogation.

Colonel Gascon is tough and no-nonsense, even at only 33 centimetres tall. But the little officer has a big secret: his combat experience is limited to reading maps.

GASCON'S TEAM TALK

Outside the communications vault, Gascon quarrels with his team, in particular the spirited WAC-47, who demands the colonel treat his squad with more respect.

ZERO-GRAVITY BATTLE

The ship's droid commander Aut-O arrives with guards. R2-D2 turns off the gravity, starting a wild fight between tumbling droids. In the chaos, D-Squad manages to escape with the encryption code.

WAC-47 is a modified pit droid programmed to be a pilot, but with ambitions to be far more.

THE REPUBLIC'S D-Squad of droids is on its way back to Coruscant when a comet swarm causes them to crash on the forsaken planet Abafar. To survive, they must cross a featureless desert known as the Void, which is without landmarks, water or power. While the droids make progress, the wilderness threatens Colonel Gascon's sanity.

RABBIT SUIT

The skeleton found in the shuttle wears a suit similar to that of Jaxxon, a man-sized green rabbit introduced in Marvel Comics' *Star Wars* comics in 1978. The skull even has long incisors.

R2 TAKES CONTROL

R2-D2 leads D-Squad in a straight line away from the crash site. It is as good a plan as any if they are to get back to Coruscant and deliver their crucial encryption code to the Jedi.

SPECIES

Void Strider

Abafar's curious atmosphere conceals its sun, rendering the entire sky a painfully bright orange and further disorientating those condemned to wander the Void.

Abafar's surface is featureless white hardpan, so travellers leave no tracks as evidence of where they have been.

COMIC INSPIRATION

This episode began with George Lucas's desire to create "an episode about nothing", recalling the work of legendary French comic book artist Moebius.

**"Look on the BRIGHT SIDE, Colonel

"A SOLDIER'S MOST POWERFUL WEAPON IS COURAGE."

STILL STRANDED on Abafar, Colonel Gascon and D-Squad visit the run-down town of Pons Ora and meet clone commando Gregor, who has lost his memory and is now a dishwasher in a filthy diner. Gascon hopes to unlock Gregor's mind so the clone will help them escape the Separatist-controlled planet and reach an orbiting Jedi cruiser.

A LOST CLONE

Bigoted chef Borkus refuses to serve Gascon a meal in his diner, forcing the hungry colonel to scrounge in the garbage. There, Gascon is stunned to find a clone dressed in civilian clothes.

Clone commandos such as Gregor are engineered for more independent thought than standard troopers, and are given extensive training in covert missions ranging from infiltration to sabotage.

SULLUSTANS

Borkus is a Sullustan, a species first seen in Episode VI: *Return of the Jedi*. Borkus is the first Sullustan to appear in the television series.

Can R2-D2 and the rest of Colonel Gascon's D-Squad of droids overpower Separatist saboteurs and prevent an attack that could change the outcome of the war?

With the Nite Owls' help, Maul and Savage defeat the Hutts' hired bounty hunters. But a final confrontation awaits with the crime lord Jabba the Hutt in his palace on Tatooine.

SITH SALVAGE

The scene in this episode in which Death Watch enters the escape pod is an homage to the 1986 classic science-fiction film *Aliens*.

Jabba's palace sits on the edge of the Dune Sea. It was originally a monastery built by the mysterious religious order of B'omarr Monks.

VIZSLA'S TRIUMPH

To Duchess Satine's despair, Mandalore hails Death Watch as heroes. In his new position of power, Vizsla imprisons Satine, then turns on Maul and Savage, throwing them in prison too.

Maul escapes from prison, kills his former ally Pre Vizsla, and takes control of Death Watch. A defiant Bo-Katan and several other warriors refuse to accept this and fight against their new leader.

As a Sith apprentice, Maul trained against many foes, from combat droids and savage beasts to the toughest adversary of all - Darth Sidious himself.
